STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal

Pesticide Storage

Keep out of reach of children and animals. Store in original containers only. Store in a cool dry place and avoid excess heat.

In case of spill, avoid contact, isolate area and keep out animals and unprotected persons. Confine spills. Call FMC: (800) 331-3148.

To confine spill: Cover to prevent dispersal. Place damaged package in a holding container. Identify contents.

Pesticide Disposal

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal

Wrap FirstLine™ GT *Plus* Termite Bait Station and put in trash. Plastic bags: Dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FirstLine™ GT *Plus* Termite Bait Station is ready to use and filled with a treated cellulosic matrix containing 100 ppm sulfluramid, a slow acting insecticide. The use of this bait suppresses or controls termite infestations. The termite activity depends on the species involved, weather, moisture, and the time of year. Termites may require 1 to 4 months or more for control. Permitted areas of use include commercial, industrial, institutional and residential buildings and structures such as, houses, apartment buildings, laboratories, stores, warehouses, schools, nursing homes, hospitals, restaurants, hotels, churches, food manufacturing, processing and service establishments and their immediate surroundings. The bait is effective against: *Coptotermes*, *Heterotermes*, and *Reticulitermes* termites. Indoor applications are limited to soil installation only.

For Structures With an Active Infestation

For use around residential, daycare and pre-school structures, apply up to 30 FirstLine™ GT *Plus* Termite Bait Stations.

For use around commercial, industrial and institutional structures (except daycare or pre-school structures) use as many FirstLine™ GT *Plus* Termite Bait Stations as needed.

Use one FirstLine™ GT *Plus* Termite Bait Station in an area of heavy termite activity. Bury the FirstLine™ GT *Plus* Termite Bait Station up to its cap in soil, wood, or mulch or completely bury the FirstLine™ GT *Plus* Termite Bait Station to help prevent tampering.

FirstLine™ GT *Plus* Termite Bait Station must be placed in close proximity to actively foraging termites so that the bait may be located by the termites and ingested. Time required for control varies depending upon how quickly the termites tube into or enter the FirstLine™ GT *Plus* Termite Bait Station and feed upon the bait.

Minimize disturbance of termites during all phases of the FirstLine™ GT *Plus* Termite Bait Station installation and inspection. Replace the FirstLine™ GT *Plus* Termite Bait Station before termites consume all of the bait within a station.

The PCO must inspect the FirstLine™ GT *Plus* Termite Bait Station every 2 to 4 weeks until the bait is consumed and/or termite activity ceases, replacing station with significant feeding (at least 50% of bait consumed) or in use for 6 months around residential, daycare and pre-school structures. The frequency of inspection should be adjusted

according to termite species, foraging pressure and climatic conditions. After feeding has stopped, continue to monitor the station every two to four months for the next twelve months and then every six months, replacing or disposing of any station in use for 6 months around residential, daycare and pre-school structures.

Attention

Do not install FirstLine GT *Plus* Termite Bait Station within wells.

Do not install FirstLine GT *Plus* Termite Bait Station into termiticide treated soil.

Do not spray FirstLine GT *Plus* Termite Bait Station during routine pesticide applications.

Do not reuse FirstLine GT *Plus* Termite Bait Station at other properties.

Do not use on fruit and nut bearing trees.

Do not install FirstLine GT *Plus* Termite Bait Station in contact with water.

Contact APG Specialty Products at: (800) 321-1362 for assistance in using FirstLine GT *Plus* Termite Bait Station or other components of the Integrated Pest Management (IPM) Program.

Distributors Should Sell in Original Packages Only.

Terms or Sale or Use: On the purchase of this product buyer and the user agrees to the following conditions:

Warranty: FMC makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Except as so warranted, the product is sold as is. Buyer and user assume all risk of use and/or handling and/or storage of this material when such use and/or handling and/or storage is contrary to label instructions.

Directions and Recommendations: Follow directions carefully. Timing, method of application, weather conditions, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller and are assumed by the buyer at his own risk.

Use of Product: FMC's recommendations for the use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice.

Damages: Buyer's or user's exclusive remedy for damages for breach of warranty or negligence shall be limited to direct damages not exceeding the purchase price paid and shall not include incidental or consequential damages.
